

# Who write the rock music?

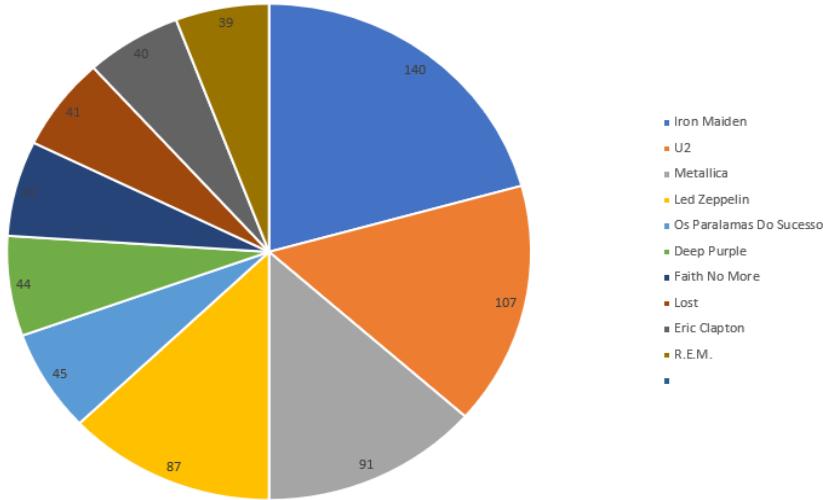

As we see The top 10 bands are shown below along with the number of songs each band has on record

The first place **led zeppelin** with **114 songs**

# what are the most popular artists ?

top 10 artist the most popular based on totalinvoices spent on

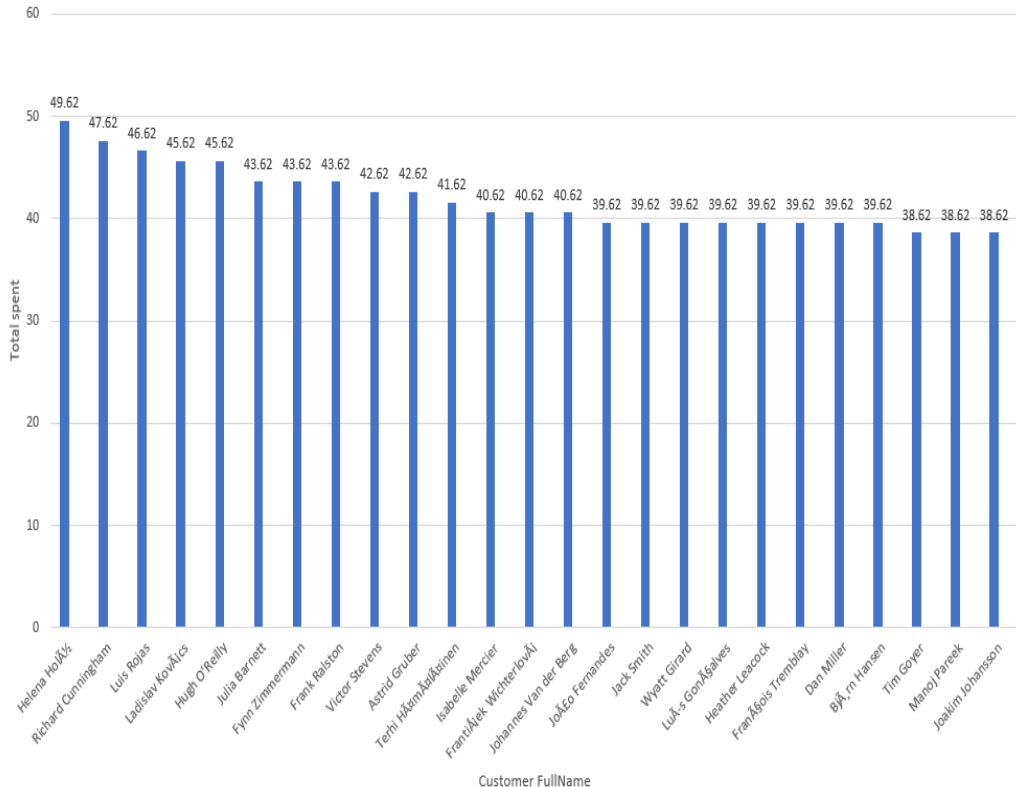

We can see that iron maiden the most popular with 140 invoices

The query limits only top 10 artists

Top 3 artist invoices equal to the other 7 artists = 338 and that's a good insight

# what are the total invoices spent on by customer ?

top 25 customer based on total invoices

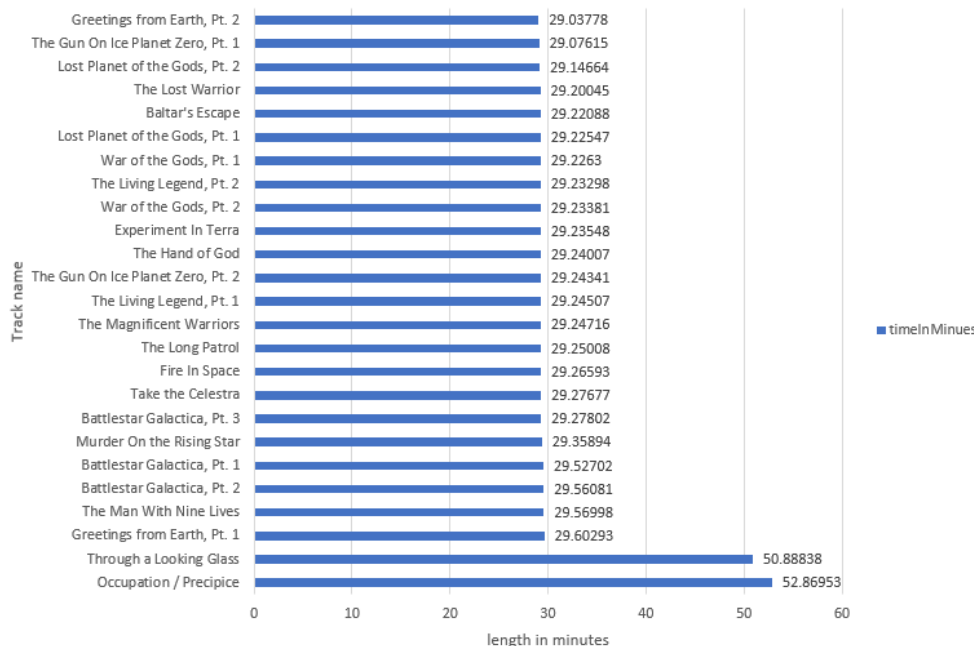

As we see here that the total spent by customer really, close to each other

The query limits only top 25 customers

# which track names that have a song length longer than the average song length ?

track names that have a song length longer than the average song length

Return all the track names that have a song length longer than the average song length

We notice that top 2 more that 50 min, and the other tracks less that 30 min

The query generates 494 track name but we limits 25 to make it good for visualization
